Moab, Utah 84532

Dear Mr. Indergard,

Thank for providing a revised Work Plan for additional geochemical testing of the Lisbon Valley Mine waste rock. This testing is required to determine whether or not the waste rock proposed to be used as backfill for the Centennial Pit is suitable for this purpose. The Bureau of Land Management (BLM) has reviewed this Work Plan and accepts the changes that have been made. Lisbon Valley Mining may proceed with the testing as defined in the Work Plan. The testing results will be incorporated into the environmental assessment for the Centennial Pit Backfill proposal.

If you have any questions concerning this matter please contact Rebecca Doolittle at (435) 259-2141.

Sincerely,

/s/ Beth Ransel
